PROFESSIONAL EXPERIENCE

Student/ Jr. Penetration Tester

Akurdi, Pune

- A Junior Penetration tester and cybersecurity enthusiast with practical experience, seeking a position as Penetration Tester at reputed company. Done many ctf's on tryhackme, hackthebox.
- Skilled in network and web application vulnerability and VAPT.
- Network vulnerability scans and penetration testing.
- Proficient in Linux operating system, Kali Linux, Windows, Tools, and utilities.
- Interested in Networking Penetration Testing and currently pursuing a entry-level CEH certification.

ACCOMPLISHMENTS

- In college days, I build one dynamic website in Django, Python. and hosted with domain. It was a CRUD system. client needed registration and CRUD system. Any user visiting a page or if user want to register could do it and take appoint. Utilities: Python, Django, HTML, CSS, Javascript, Heroku, bootstrap. Postgresql. It was my first time building real world application for a client.
- I have done many CTF on tryhackme, hackthebox platforms and through this challenges I learned a lot about cyber security and I still do many new CTF's on these platforms also learned a lot about OWASP from portswigger by doing XSS, SQLi challenges.

INTERESTS

- I always from starting my college, I started getting interested in keyboard typing, for me it's fun when i get bored I just type on laptop there are some website and you can race with other people online and with that you also get your typing speed and accuracy high as much as you practice and other hobbies that I have is doing CTF'S, Anime, T.V Shows which I am often watch.
